DRAFT GKM Release Incident alert and notification plan 09012015.docx

Folks,

Please review the attached draft GKM / Animas River Stakeholders Alert and Notification Plan. The basic idea is that if there is any incident that is observed at the mine site that may cause concern downstream, Mine Site OPS is to make initial notification to Silverton/San Juan County, and will notify Durango ICP or IC. The ICP or IC will make subsequent notifications based on the alert level.

The Plan may seem a little more complicated than you think it needs to be, but has required coordination with the stakeholders. Please review and provide any comments to Liz Fagen. Liz will finalize and distribute final plan on Tuesday. In the meantime, the draft plan is effective. Thanks,

Greg Weigel
